English (Fluent)

Urdu (Native)

AYESHA IFTIKHAR

Aspiring Web Developer

OBJECTIVE

Ambitious, highly motivated, and detail-oriented Information Engineering Technology student seeking an entry-level Web Developer role or Frontend Internship. Combining a strong academic foundation in programming, software fundamentals, and digital logic with core frontend skillsets like HTML5, CSS3, and JavaScript logic. Eager to contribute to dynamic software engineering teams, build fully responsive interfaces, and continuous skill refinement.

EDUCATION

The University of Lahore

Bachelor of Science in Information Engineering Technology (BSIET)

Currently Enrolled — 2nd Semester Completed

KIPS College

Intermediate (ICS)

Year: 2025 | Marks: 946 / 1200

Bab-e-Arqam School

Matriculation

Year: 2023 | Marks: 883 / 1100

ACADEMIC PROJECTS & CODING EXPERTISE

Web Interface Development & Logic Frameworks

Academic Projects & Labs Track

- Responsive Web Modules:** Designed clean web page components utilizing semantic HTML5 tags and flexible CSS layout models (Flexbox/Grid) ensuring full device compatibility.
- Programming Logic Foundations:** Deep hands-on practice in code debugging, memory management, and structural execution using C++ and Object-Oriented Programming (OOP) paradigms.
- Database Systems:** Familiar with building entity relationships, querying data tables, and organizing database architectures for smooth web workflows.
- UI Enhancements:** Actively utilizes visual layouts and styling best practices to bridge the gap between software design frameworks and clean code output.
